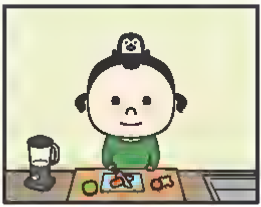
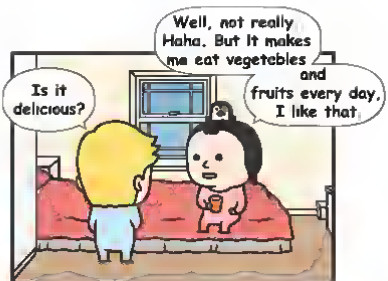
Health Juice

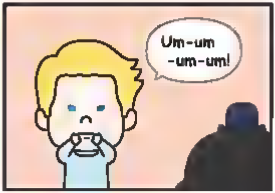


Recently, I started to drink a glass of healthy juice that is made from blended vegetables and fruits every day.

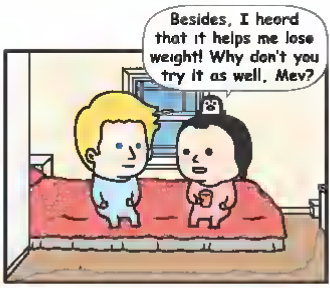


Well, not really
Haha. But it makes
me eat vegetables
and
fruits every day,
I like that
Is it
delicious?

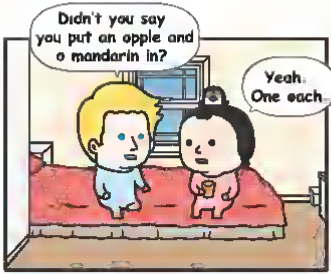
Then one day

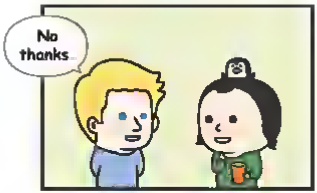


...stimulated our desire for winning



We talked about how good the juice was.

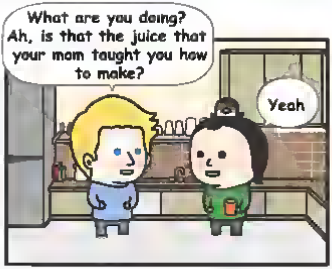




But it seemed like there was no way to make him drink the juice.

Anyway I still ashed him whenever I drank the juice in case he changed his mind.

I can make it very easily and drink it instead of a meal so I really like this juice.



I hadn't had this far a lang time but I thought this juice was very good.

So I wanted Mev to try this juice as well.
